The health and safety of our loyal staff, independent contractors, customers and the communities we serve is first and foremost in our minds.

THANK YOU to all the doctors, nurses, everyone in health care, first responders, firefighters, grocery store employees, gas stations, delivery drivers, truck drivers and essential people on the front lines to continue providing essential goods and services as we fight Coronavirus.

We all much appreciate all you have done, are doing and will be doing!!

Please shop local, especially during these difficult times.

We appreciate your cooperation while the Coronavirus pandemic exists.

We are all in this together! We will all get through this together!

Please stay safe! Thank you!

Serve Braised Pork For An Irish-Inspired Dinner

Items like stew made of mutton, beef or lamb, cod fish cakes and potato dishes are notably associated with Irish cuisine. However, many may be surprised to learn that pork has been a key part of the Irish diet for centuries. In fact, dating back to Neolithic times, large amounts of pig bones have been found near ancient habitations in what is now Ireland, likely indicating that wild boar, and eventually domesticated pigs from farms, were a prime source of food.

CIDER-BRAISED PORK WITH APPLES, ONIONS, AND THYME

Serves 6

- 2 tablespoons all-purpose flour
- Salt
- Freshly ground black pepper
- 1 (2 3/4-pound) tied pork shoulder roast, netting or string intact
- 1 tablespoon peanut or vegetable oil, plus more, if needed
- 1 tablespoon olive oil
- 2 medium leeks, halved length-

- wise and cut into half-moons
- 2 cloves garlic, finely chopped
- 1/2 pound small yellow pearl onions, peeled
- 1 tablespoon chopped fresh thyme
- 3 to 4 cups hard apple cider
- 1 tart apple, peeled, cored and cubed
- 1 tablespoon Dijon mustard
- 1 tablespoon chopped fresh flat-leaf parsley

3. Add the olive oil to the pot, then the leeks, and cook, stirring, for 3 minutes. Add the garlic, onions and thyme, and season with salt and pepper. Cook and stir for 2 minutes, then nestle the pork in among the vegetables. Add the cider until it comes about halfway up the sides of the pork, cover the pot, and transfer it to the oven.

- Braise for 1 hour; then turn the pork over, add the apple cubes, and braise for another hour or so, until the pork yields completely when poked with a skewer.
- 4. Transfer the pork to a platter, cover with foil, and let rest. Meanwhile, return the braising liquid to the stove top, and simmer until considerably thickened,

- about 15 minutes. Stir in the mustard; then season to taste with salt and pepper. Stir in the parsley.
- 5. Slice the pork and top with the apples, vegetables, and braising liquid.
- Serving suggestion: This dish is tailor-made to be eaten with a bowl of mashed potatoes, or try it with some traditional Irish colcannon.

1. Preheat oven to 325 F. Heat a large, heavy, ovenproof soup pot or Dutch oven (with a tight-fitting lid) over medium-high heat. Place the flour on a small plate. Season the flour liberally with salt and pepper. Pat the pork dry; then coat it on all sides with the flour mixture.
2. When the pot is hot, add the peanut oil and sear the pork (leaving the string on) until nicely browned on all sides, 3-4 minutes per side. Transfer the pork to a plate, and carefully wipe the pot clean with paper towels. Reduce the heat to medium.

Unique Easter Traditions From Across The Globe

Easter is the most important day of the year on the Christian calendar. A celebration of the Resurrection of Jesus Christ, Easter commemorates the very core of the Christian faith. So it comes as no surprise that such an important day is steeped in tradition.

Easter traditions such as Easter Sunday Mass are widely known. But there are many unique Easter traditions across the globe that, while they may not be as widely known, illustrate the power of this very special day in the Christian community.

- India: India may not be the first nation to come to mind when thinking of countries in which Christianity has a strong foothold. And while only a small percentage of people in India identify as Christian, Easter celebrations in the country are elaborate. For example, in the small state of Goa, Easter celebrates host carnivals and exchange gifts with fellow Christians. Those gifts include the Holy Cross, which is exchanged after Easter church services have ended. Such services are then followed by Easter parties, where families and friends gather and break bread together, much like Christian celebrants do in other parts of the world.
- Italy: Residents of Florence celebrate Easter Sunday with a genuine flash. In a tradition that dates back several centuries, Florentines load a cart with fireworks before exploding it outside the famed Florence Cathedral.

Part Time Help Wanted

St. John's Cemetery, Hamburg, PA

Approximately 5 hours per week.

Must be available on "short notice".

Duties include checking on cemetery grounds, emptying trash receptacles, leaf and snow removal, setting up and working with funeral directors during services.

Office Hours: Mon. - Fri. 8-5

- Europe: Many European Christian communities burn an effigy of Judas Iscariot as part of their Easter celebrations. Christians believe the apostle Judas betrayed Jesus Christ, a betrayal that led to Christ's crucifixion. Despite some groups denouncing the burning of Judas as anti-Semitic, the practice continues in many countries.
- Spain: Holy Week commemorates the entire week preceding Easter Sunday, including Holy Thursday and Good Friday. In the Spanish town of Verges, Christians commemorate Holy Thursday by reenacting scenes from the Passion, which refers to the short period at the end of Christ's life. The "Danza de la Mort (Death Dance)" is part of that commemoration, and during this dance, participants dress up like skeletons. Easter celebrations across the globe are steeped in tradition, including some that might surprise even the most devout Christians.

Some Challenges Of Going Remote With Your Business

The number of professionals working remotely has risen dramatically over the last decade-plus. According to an analysis from Flexjobs and Global Workplace Analytics, there was a 159 percent increase in remote between 2005 and 2017.

That shift toward remote work might have been silent and gradual for much of the 21st century, but the volume was ramped up during the outbreak of the novel coronavirus in the United States in March 2020. In an effort to slow the spread of the potentially dangerous virus, government officials urged businesses to allow their employees to work remotely, and just like that the number of remote workers skyrocketed. The internet has made it possible for businesses in various industries to go remote, but such a transition does have some unique challenges.

- Software: Hasty transitions to remote work, like those forced by the COVID-19 outbreak, created a crisis of sorts for companies that previously had not had many remote employees. Employees were suddenly asked to work on home computers that may or may not have had all the necessary applications for them to perform the daily tasks associated with their jobs. Companies that must transition to being remote, whether that transition is temporary or permanent, must recognize that remote employees will need access to software necessary to do their jobs. Workers who only have old computers at home may need

to be provided with computers that are compatible with the versions of software used in the office.

- Communication: Communication issues between remote workers can be an easy fix. Even businesses that are facing sudden and forced transitions to remote workplaces can utilize instant messaging apps like Slack to facilitate immediate communication between employees. This can drive greater efficiency and promote the sense of community among staff that many companies are proud to have fostered.

- Customer service: Ensuring customers can seamlessly connect with your business, and your customer service staff in particular, should be a priority when switching to a remote work setting. A 2014 study published in The Quarterly Journal of Economics even found that remote working allowed customer service staff to get through 13 percent more calls each day. Remote customer service employees won't have the direct access to management and fellow team members that they had when working on-site, so business owners can employ central management platforms that make it easy to access information regarding new products and services and previous interactions with and responses to customers. That access can help solve issues while reducing the likelihood of substantial lag time as customer service employees wait to hear from coworkers and managers about how to

respond to certain issues. Many businesses were thrown into the proverbial deep end when forced to go remote due to the COVID-19 outbreak.

Challenges present themselves during such transitions, but these challenges can be overcome with a handful of effective strategies.
