Foods That Can Positively Affect Moods

No one is immune to the occasional bad mood. Whether it's the weather, waking up on the wrong side of the bed or another variable, various factors can have an adverse affect on a person's mood.

Food is one factor that can have a positive effect on mood. Certain foods have been found to positively affect mood, so incorporating them into your diet may help you stay positive even on those days when you get up on the wrong side of the bed.

• **Fatty fish:** A study from British researchers published in the Archives of General Psychiatry found that a daily dose of an omega-3 fatty acid called eicosapentaenoic acid, or EPA, helped patients with depression significantly reduce their feelings of sadness and pessimism. Hackensack Meridian Health notes that

salmon, albacore tuna, sardines, trout, and anchovies are rich in omega-3 fatty acids.

• **Nuts and seeds:** The minerals selenium, copper, magnesium, manganese, and zinc have all been linked to mental health, and nuts are rich in each of those minerals. Hackensack Meridian Health notes that almonds, sunflower seeds, pumpkin seeds, walnuts, and peanuts are particularly good sources of the immune system-boosting minerals zinc and magnesium.

• **Dark, leafy greens:** Dark, leafy greens like kale, spinach and collards are rich in iron and magnesium, both of which can increase serotonin levels and help reduce feelings of anxiety. Dark, leafy greens also help the body fight inflammation, which can have a positive effect on mood. A 2015 study published in the journal

JAMA Psychiatry found that brain inflammation contributed to certain behaviors, including low mood, that appear during major depressive episodes.

• **Dark chocolate:** Chocolate lovers may be happy to learn that dark chocolate can improve mood. A 2009 study published in the Journal of Proteome Research found that dark chocolate helped to reduce levels of the hormone cortisol, which has been linked to stress. Hackensack Meridian Health notes that, when consumed in moderation, dark chocolate made of at least 70 percent cocoa can help people relax.

Various foods can have a beneficial effect on mood, potentially helping people to stay positive when doing so proves challenging.

**THE ABOVE AUCTIONS ARE CURRENTLY SCHEDULED TO APPEAR IN
THE EAST PENN VALLEY AND/OR NORTHERN BERKS MERCHANTISER.**
This listing published courtesy of The Windsor Press, Inc., Hamburg, PA

There are four things different between Picture A and Picture B. Can you find them all?

A woman wearing a light pink dress and a wide-brimmed straw hat is sitting on a wooden swing. The swing is suspended by a rope from a large, leafy tree on the left. She is looking out over a sandy beach towards the ocean. In the background, there are large, dark rocks on the shore and a prominent, jagged rock formation in the water. The sun is setting behind the horizon, creating a warm, golden glow over the scene. The sky is a mix of orange and blue, and the water has a shimmering surface.

Answers: 1. Rope on swing missing 2. Boat missing

Once Upon A Time....

There was an owner of a very successful ice cream shop. This owner built his business by having the creamiest ice cream around and by letting his customers know about them through extensive advertising. His business was so successful that he was able to send his son to a prestigious Ivy League school where his son was studying to receive his M.B.A.

One day the son came home for a break and promptly questioned his father "Dad, don't you know that there is a recession going on out there?" The father replied that his business was going very well, but the son persisted telling his father "Dad, you've got to cut back." So the father, figuring his son knew all about business, followed the son's advice. He promptly cut his advertising budget and then cut his cone & ice cream orders. Before long, business in fact did slow down. So the father replied to the son "You were right, son. Business is terrible. There is a recession going on out there."
