6-8 PM

RODALE INSTITUTE
611 SIEGFRIEDALE RD
KUTZTOWN, PA 19530

REGISTRATION:

\$100 program fee plus
\$100 security deposit
(returned after volunteer
service)

Contact Rick Carr, Compost
Production Specialist at
610-683-1415, or email
rick.carr@rodaleinstitute.org
for more information
or for a volunteer training
application.

What is our Training Program?

The Master Composter of Rodale Institute training program, sponsored by the ERM Group Foundation, is a multi-week, volunteer-driven compost education program that will provide trainees with the education and skills to become masters of backyard composting among their community members.

Trainees will learn several elements of composting and solid waste management through a series of six lectures, demonstrations, hands-on activities, field trips, and outreach and education opportunities.

You can learn:

- * Compost basics & systems
- * Worms, biology, & microbiology
- * Uses for compost
- * Scale & case studies
- * Solid waste management
- * Outreach & education

Requirements:

- * Attend six classroom lectures
- * Participate in demonstrations & field trips
- * Complete 40 hours of compost-related community service

HYPNOSIS FOR THE STUDENT

For some students, the stress and anxiety of school and academics can become overwhelming. The pressure comes from themselves, parents, teachers, and friends causing a lot of stress for students. Stress affects students in many different ways. For some students, their grades start to suffer. Others become so overwhelmed by stress that they drop out of school. Hypnosis can be very useful tool in helping struggling students who are seeking help in reducing their stress. A study performed in 1990 took a look at the role hypnosis played on helping college students with test anxiety. The participants in the study were randomly divided into two groups. One group served as the control group and received no form of treatment. The

other group received cognitive-behavioral hypnosis. The researcher evaluated the effects of hypnosis in improving academic performance and decreasing test anxiety. Both groups were enrolled in a demanding psychology course. All students were evaluated based on their midterm grade and anxiety levels. The hypnosis group reported a significant reduction in test anxiety and improvement in academic achievement. Both groups were evaluated 6 weeks after the end of the course and the hypnosis group was found to have maintained their hypnosis treatment gains in achievement and reduction in anxiety. Cognitive behavioral hypnosis is a highly effective form of treatment that helps students improve performance and reduce anxiety.

The self-hypnosis that was taught to students, which included relaxation techniques and the usage of imagery, was able to help the college freshman cope with stress and the pressures of college. Hypnosis is a very effective in helping to reduce stress and anxiety in college students and also students of all grades. Having the ability to better manage stress not only improves their academic performance, but will continue to help them cope with stress in other situations throughout their lives. As their stress and anxiety lessens their confidence grows. Remember, hypnosis is helpful for the whole family. Parents of a stressed student are usually stressed themselves and benefit greatly from hypnosis too. Curious about hypnosis?? Enjoy a FREE group hypnosis session to destress and relax. Tuesday, August 25 at 6:30 pm. Everyone is welcome. No cost or obligation and no reservations needed. Dress comfy and enjoy! Located at Inner Peace and Wellness Center, 202 S. Third St., Hamburg, PA 19526. Stop in at Inner Peace and Wellness Center's Wellness Day, Sat., Aug. 8, 10-4. No admission fee. Fee for products and services. Enjoy a variety of vendors and practitioners. Lori will be offering foot reflexology and answering questions about hypnosis. For more info., please feel free to contact Lori Kleinsmith, Certified Hypnotist, Pinnacle Hypnosis & Therapies, 610-823-4160. www.pinnaclehypnosis.com.

WHEN TO ELECT SOCIAL SECURITY MAY BE THE SINGLE MOST IMPORTANT DECISION OF YOUR RETIREMENT

The difference between the best and worst possible outcome is often over \$100,000. Most people think you can do a simple break-even analysis using one of many free break-even calculators available to determine whether to elect Social Security early or wait.

However, virtually all of the simple break-even calculators in use today ignore the spousal and survivor benefits available to married couples. There has never been a tool that could offer a thorough analysis to show married couples when to elect their Social Security benefit and whether to use creative election strategies to maximize their income stream - until now.

Using software analysis, we examine hundreds of possible combinations, including 81 possible age combinations across nine possible election strategies, and find the one option that offers the highest expected lifetime benefit.

Students Seeking Private Music Lessons Have Options

Time and again research has proven the benefits of music education. Children who study music typically score better on standardized testing and exhibit improved language and reasoning skills, and music education helps students with advanced mathematics lessons by improving their spatial and temporal reasoning. Involvement in music and the arts can improve a student's SAT scores and make the student well-rounded. Despite these benefits, music and art education is slowly disappearing from the classroom. At many schools across the nation, stages are dark and band and chorus rooms are empty. Budget cuts have been unkind to music education programs. To keep up with the demand for technology in the classroom, certain school programs have to be scaled back, and art and music are generally the first to go. This leaves it up to parents to involve their kids in music education.

Private lessons have long been a great way for kids to learn music, and many such music coaches are former music teachers. With private lessons, kids get to benefit from working with certified instructors, and parents are happy to make music a part of their youngsters' lives. The following are a handful of ways parents can find private lessons for their kids.
* Word of mouth: Begin by asking neighbors or friends in the community if they know of any reliable music teachers. Someone is bound to know a person or have a connection to a music teacher. Speak with members of a community music ensemble, such as a church choir, or even amateur or professional musicians you see playing at a restaurant or bar. There's a good chance you can get a referral. You may also have a friend or neighbor who is a talented musician and will agree to offer lessons on the side.

* Community music programs: While schools may not have music classes, community centers offer programs for both adults and children. A community arts center may offer instrument training and/or vocal lessons, so look into such organizations in your community. A community YMCA or a similar organization also may have after-school music programs..
* Advertising: Tutors frequently advertise their services in the Merchandise. Look to see if anyone is offering music lessons. Many papers now offer their classifieds both online and in print, so utilize both options to ensure your search is as thorough as possible. Music education is important, but those seeking instruction may have to look outside of school. Private instructors are available to help foster a love of the arts and mold creative, well-rounded children.

Where is Your
WEBSITE?

We have officially entered the Golden Age of the Internet, where having a website for your business is an absolute essential. So where's your website? The Windsor Press offers affordable website design and hosting of your new website. An effective website is the cornerstone of any small business's marketing strategy, offering fundamental information 24 hours a day. There are multiple reasons why you need a website today:

WEBSITES NEVER SLEEP

Websites never take a break, even after business hours are over, customers still have the opportunity to browse your business's website. A website will allow your business to be open 24 hours a day, every day of the year - that's the equivalent to having an employee work around the clock, even weekends and holidays!

INCREASES THE EFFECTIVENESS OF YOUR ADVERTISING

Print advertisements are definitely effective components in the advertising mix, but it's the website that strengthens your company's message. Once you have a website up and running, we recommend your print advertising include your website address.

"GOOGLE IT"

How many times have you heard "I'll Google it?" More than ever before, people are turning away from traditional means of finding information and looking online. Your business should be at customer's fingertips when they look on any online search engine.

INSTANT CREDIBILITY

Have you ever had difficulty making that sale? Or convincing someone that you are the real deal? Having a website is comparable to having an online business card, containing basic information on you and your offerings, along with a way to reach you.

CONTACT KATIE AT THE WINDSOR PRESS TODAY FOR YOUR NEW WEBSITE

No matter the size of your business, it is crucial to have an online presence for customers to quickly and easily find out more about your business and the products or services you have to offer.
