BRIDGESTONE

ECOPIA™ EP422 Plus

All-Season Touring

The Ecopia EP422 Plus featuring T-speed rated sizes is
one of Bridgestone's ecologically oriented Standard
Touring All-Season tires developed for the drivers of
coupes, sedans, minivans and small crossover vehicles
looking to combine year-round traction, handling and
comfort with reduced environmental impact. Ecopia
EP422 tires are designed to enhance vehicle fuel economy
by reducing tire rolling resistance along with the vehicle's
carbon dioxide (CO2) emissions while delivering year-
round, all-season traction, even in light snow.
The Ecopia EP422 uses an all-season tread compound
featuring Bridgestone's unique NanoPro-Tech (Nanostructure-
Oriented Properties Control Technology) to reduce rolling resistance and energy
loss while maintaining dry, wet and wintertime traction. This compound is molded
into a symmetric tread design that combines notched shoulders and intermediate
ribs with independent center blocks for dry road tracking and traction. Four
circumferential grooves are designed to help water flow from under the footprint
to resist hydroplaning and enhance wet traction while notches and sipes increase
the edges that bite into light snow. The tire sidewalls feature Bridgestone's Fuel
Saver compound to further increase efficiency. The tire's internal structure
includes twin steel belts reinforced by spirally wrapped nylon on top of a
polyester casing to blend ride comfort and durability.
