**Hypnosis and New Year's Resolutions**

By: Lori Kleinsmith, NLP & Certified Hypnotist

Hypnosis and its uses in the practice of hypnotherapy is a highly effective science in assisting people in the solving of their problems. It can be very beneficial in many cases. It is a valuable adjunct in psychotherapy and psychiatry. Yet it is probably the lowest risk procedure available from the standpoint of contraindications. The subconscious mind receives and retains, neither accepting nor rejecting, all the messages we receive from our backgrounds, whether genetic, social, religious or experiential, plus all the conflicts (little or big) that enter our lives daily. Your subconscious mind is also listening. When for whatever reason the conscious mind (which deals with everyday living, logic, reason, etc.) becomes overloaded, the subconscious prepares us for what the considered appropriate action (usually fight or flight). However the subconscious mind does not analyze, as does the conscious mind but accepts all messages in the literal sense. Think of it like you are recording by talking into your phone or computer. Neither your phone or computer have any emotional responses to what you are saying. They just record. Just like your subconscious mind.

Hypnosis is a means of communication between the conscious mind and the subconscious mind. Many problems, habits, stress, anxieties, attitudes or apparent deficiencies can be traced to interpretations by the subconscious mind, which when understood by the

**Get Back On Track With Healthy, Low-Fat Dining**

At the start of a new year, many people resolve to get in shape and lose weight. Diet and exercise have long been the ideal recipe for shedding pounds. In order to do so, a person must create a calorie deficit, which occurs when a person burns more calories than he or she consumes. Healthy, low-fat and low-calorie foods can help people create a calorie deficit.

This recipe for "Smoked Haddock on a Nest of Potatoes" from Sue Kreitzman's "Low Fat for Life Cookbook" (DK) checks in at just 221 calories per serving with 2 grams of total fat, making it a great choice for those who want something light and healthy.

**SMOKED HADDOCK ON A NEST OF POTATOES**  
Serves 2

1/2 pound potatoes, scrubbed but unpeeled  
2 pinches paprika  
Oil water spray (see below)  
Salt and freshly ground black pepper  
2 pieces smoked haddock, each about 5 oz, skinned and bones removed

Bunch of watercress to garnish  
Slice the potatoes paper-thin. Using the slicer on the side of a grater is the best way to get fine slices. Put into a colander and rinse well, then drain and dry in a dish towel. Toss the slices with a pinch of the paprika and a spritz of oil-water spray.  
Spray a baking sheet and spread the slices out. Bake in a preheated oven for 10 minutes, then stir them, spread out again, and bake for about 5

minutes more, until tender and browned. They should be crisp in patches. Sprinkle a pinch of paprika and a grinding of pepper over the fish. Lightly salt the potatoes and arrange in two piles on the baking sheet. Place a piece of fish over each pile of potatoes. Bake for about 7 minutes at 475 F, until just done. Garnish with watercress and serve with sautéed mushrooms alongside, if desired.

OIL-WATER SPRAY  
Fill a new, clean plant mister or small plastic spray bottle with 7/8 water and 1/8 desired oil. Give the bottle a good shake before using it to spray food or pots and pans. This oil-water spray cuts down on calories and makes for low-fat cooking.
