New Board Game Debuts In Oley

Geometry Strategy is a game developed in Sweden and making its first U.S. appearance in Oley at Evelyn & Harriette's Gifts. The game is designed for two to four players and is unique in that the rules may change during play (similar to real life). Each player has ten geometric shaped pieces. The object is to get the sphere from the base line to the bulls eye in the center of the board, however the sphere can only move one space at a time and is totally defenseless. The sphere has to depend on the other nine pieces to defend it. One piece, the helix, is invulnerable and outranks all others. Play is focused around the other eight pieces which have a ranked value based on the shape with the largest volume, or largest area, or most flat surfaces. Part of the play is the selection of which rank system prevails at the time of play. A higher ranked piece can remove a lower ranked piece but the rank order may change at any time during play. Add to this changing condition the fact that each player may have to defend against three others with the same goal and you have a fast moving game that challenges the best minds. This is truly a game of strategy and

of being able to think not only of your own moves but consider what moves the other players might make. The game was developed around geometric shapes so that visually handicapped players can enjoy this "thinking" game. It is ideal for chess enthusiasts and people who enjoy a challenge beyond the

mindless pushing of buttons just to achieve a score. Geometry Strategy and many other non-electronic games are offered at Evelyn & Harriette's, located at 1232 Oysterdale Road, Oley, 610-987-6055. Please stop in and check them out along with our unique selection of gifts from around the world.
