# RELAXATION LOANS

bringing you peace of mind

**BONUS RELIEF**

You could win a **\$200 VISA Gift Card** for use at the spa of your choice.\*

**PERSONAL LOANS**  
as low as **8.99%** APR\*\*

**AUTO LOANS**  
as low as **1.69%** APR\*\*

\*Qualifying loans include auto, new, used, and refinances; as well as personal, signature, consolidation, heating oil pre-payment purchase, and alternative heating funded on or after 3/1/21. Two eligible members who received a qualifying auto loan and two eligible members who received a qualifying personal loan will be randomly selected to receive a \$200 Visa gift card for use at the spa of their choice. Certain restrictions may apply. Terms and qualifications are subject to change without prior notice. For more disclosures and Official Rules, please visit [www.hdriver.org/notice/relaxation-loans](http://www.hdriver.org/notice/relaxation-loans). \*\*APR = Annual Percentage Rate. Rates and terms are subject to change without approval or notice. HRCU will finance up to the Manufacturer's Suggested Retail Price (MSRP) plus tax and tags for a new vehicle. HRCU will finance up to 175% of the value of the vehicle for a used or refinanced vehicle based on NADA, Kelly Blue Book, or other authorized guide when determining used vehicle values. Minimum loan amount is \$2,000. The interest rate applied may be up to 2.5% higher based on the applicant's credit score, debt ratio, or vehicle value. HRCU makes all final determinations regarding the vehicle value and applied interest rate. See the LOANLINE Credit and Security Agreements available at HRCU.

# Recipe

## POPPY SEED CHICKEN

1 cup sour cream  
1 can (10-3/4 oz.) condensed cream of chicken soup, undiluted  
1 Tbsp. poppy seeds  
1 tsp. dill weed

4 cups cubed cooked chicken  
3 cups cooked rice  
1-1/2 cups butter-flavored cracker crumbs  
1/2 cup butter, melted

In a large bowl, combine the sour cream, soup, poppy seeds and dill. Stir in chicken and rice. Spread into a greased 11x7-in. baking dish. Combine the crumbs and butter; sprinkle over top. Bake, uncovered, at 350° until bubbly, about 30 minutes.

Send your recipes to: The Windsor Press, Inc.  
6 N. Third St., PO Box 465, Hamburg, PA 19526-0456  
Fax: 610.562.2770 or E-mail: [display@windsorpress.com](mailto:display@windsorpress.com)

## What Is Hypnosis

By Lori Kleinsmith, Certified Hypnotist  
Pinnacle Hypnosis and Therapies

"The beauty, power and wonder of hypnosis as both a natural human phenomenon and a tool with which to help and heal lies in how it can so dramatically alter perception." What a great and accurate statement by Mark Tyrell, Co-founder of Hypnosis Downloads. Let's take a look at what Mark is saying:

"The beauty, power and wonder of hypnosis" When using hypnosis results can be remarkable. The power (your power) and beauty (your beauty) of the subconscious mind (your subconscious mind) is wondrous. You are always in control and therefore in power. When a person is hypnotized they have the ability to accept or reject any suggestions that are given by the hypnotist. They cannot surrender their will or reveal any secrets.

"Natural human phenomenon" Everyone enters natural hypnotic states multiple times a day. For example: Lets say you are driving to work. You enter your car, start the engine, put it in gear and off you go to work. As you are driving your subconscious mind starts to think about other things such as what you saw on TV that morning or remembering a conversation you had with your children or spouse. Next thing you know you are pulling into your parking spot at work. You really don't remember the whole drive but you were in control of the car. You were able to brake when needed and accelerate. You still knew what roads

and turns to take. Those times your subconscious mind was thinking of other things as you were driving, you were in a natural hypnotic state and still in control.

"A tool with which to help and heal in how it can so dramatically alter perception." When hypnosis is mentioned many people associate it with weight loss and smoking cessation. What many people don't know is that hypnosis is also a natural tool that helps people with stress & anxiety issues, pain management, remove fear, sports improvement, test anxiety, motivation, concentration, sexual issues, relationships, anger issues to name just a few. The deep relaxation helps to dramatically alter perception along with hypnotic suggestions given during the session by the hypnotist. You too can feel the beauty, power and wonder of hypnosis. Hypnosis, the natural, human phenomenon and tool which helps assist your healing. Hypnosis works! Why are you suffering when help is available? Offering compassionate, motivational and individualized sessions. Still not sure about hypnosis? We have a wonderful team of dedicated professional. See ad for more details.

## How Puzzles May Benefit Brain Health

Many people enjoy the challenges posed by puzzles such as crosswords, word finds and Sudoku, among others. Some even wonder if puzzles are more than simple fun and something that can actually benefit the brain.

The idea that there's a correlation between exercising the brain through puzzles and improving its function, much in the way that lifting weights can strengthen the muscles of the body, seems reasonable. Studies are ongoing, and the reviews are mixed. A 1999 study examining crosswords that was published in the Journal of Experimental Psychology found no evidence to suggest crossword puzzles reduced age-related declines in cognition. However, research published a year later in Psychology of Aging suggested that crosswords, when done by older subjects, seemed to partially attenuate the negative effects of age on memory and perceptual speed tasks. Data published in USA Today indicates that solving puzzles may help reinforce existing connections between brain cells and the generation of new relationships. This may improve mental speed and thought processes. Doing jigsaw puzzles could help with short-term memory, namely remembering shapes and colors, and visualizing the larger, finished picture.

Researcher Keith Wesnes, a professor of cognitive neuroscience at the University of Exeter in England, studied the impact of crosswords on attention, reasoning, and memory. Wesnes found a direct relationship between solving puzzles and the accuracy of varying ranges of functions, including reasoning, attention and memory recall. Puzzles can keep the brain active. Tangible results notwithstanding, one can reason that engaging regularly with word-based puzzles can improve vocabulary fluency

and keep people in tune with turns of phrase and even current events. Puzzles also may assist with thinking creatively and employing reason to solve problems. Achieving success with puzzles may pave the way for tackling larger challenges by thinking outside of the box.

Even though studies are ongoing, there is some belief that doing puzzles can slow decline in memory among healthy individuals as well as those who have been diagnosed with dementia. A 2014 trial funded by the National Institutes of Health found that the benefits of cognitive training for older adults can last as long as 10 years. The researchers recommended that older adults try any cognitively stimulating activity, such as solving crossword puzzles and playing cards.

Puzzles are stimulating and fun and can be social when shared with others. These are factors that can stimulate the brain and may even help it to maintain optimal function.
