How Do You Glow?

Illuminate Your Muscles for MDA 2 Is Back

and ready to light up Schuylkill County. Your adventure will begin on Grist Mill Road (behind Schaeffer's HD) and continue throughout West Brunswick Township. The brighter you glow, the further you will go! Creativity is a must for this 5K, so we will provide some illumination, but the rest is up to you. The use of glow sticks, flashlights, head lamps and anything else you can think of to light yourself is highly encouraged, not to mention essential!

Saturday, Sept. 26, 2015 at 5:30 pm

Registration begins at Schaeffer's Harley-Davidson
1123 Brick Hill Road, Orwigsburg, PA

7:00 pm - Ready, Set, Glow 5K Begins
7:03 pm - Walkers and Rollers Head Out

Registration is also available online at www.pretzelcitysports.com

When To Visit These Honeymoon Hotspots

A honeymoon provides a welcome retreat for couples after months upon months of budgeting, planning and ironing out the details of their weddings. On their honeymoons, couples get the chance to escape the pressures of everyday life and simply enjoy being alone with each other in special locations. Honeymoon vacations can be expensive, and many couples want to ensure they get the best value for their trips. A honeymoon that is overshadowed by inclement weather can make this once-in-a-lifetime trip memorable for all the wrong reasons. While not every hiccup can be avoided, couples can plan their honeymoons for those times of year when specific locales experience their best weather.

- **Jamaica:** Couples tying the knot in the earlier part of the year may want to honeymoon in Jamaica. With average temperatures in the 80s year-round, Jamaica makes for a great honeymoon destination. January

through April see less rain than other times of the year, and keep in mind June through the end of December is hurricane season.

- **Australia:** People opting to get married in the winter in the Northern Hemisphere might want to escape the cooler temperatures and shorter days with a honeymoon south of the equator. Australia and New Zealand are beautiful spots to visit and enjoy summer when those in the Northern Hemisphere are mired in winter.
- **France:** Paris and other French cities can be enchanting to visit any time of the year, but locals advise honeymooners visit in September when the climate is quite comfortable and tourism is minimal. Spring is another great time to visit France, especially for those people who want to spend plenty of time outdoors.
- **Mexico:** Areas of Mexico, such as popular Cancún and Cozumel, tend to stay warm all

year long, but they can be particularly hot in the summer. Spring brides and grooms may want to venture there before the summer season is in full swing. Couples might want to avoid vacationing in certain areas in March, as students visiting for spring break may compromise the romantic atmosphere honeymooners are hoping for.

- **Hawaii:** Spring and summer can be ideal times to visit the islands of Hawaii, as the weather can be beautiful and travel tends to be less expensive during these times of year. Rains increase as autumn sets in, and Hawaii often sees the bulk of its vacationers during the winter, meaning higher costs and bigger crowds.
- **Italy:** April through June and September through October are some of the best times to visit Italy. Be aware that Venice tends to be misty and damp during the late fall and early spring. Italy, especially southern Italy and Sicily, can get quite hot during the peak summer months. Weather and tourism should be considered as newlyweds choose where to go on their honeymoons.

How To Arrange The Best Outdoor Wedding Photos

Photography is a great way for couples to capture all the special moments that occur on their wedding days. Long after the final piece of wedding cake has been consumed, wedding albums remain to remind couples of all those moments that made their big day so special. Photography preferences differ from couple to couple, but when weather permits, many brides and grooms prefer to take photos outdoors. Mother Nature can provide some awe-inspiring backdrops, and such beauty comes at no extra cost. Couples using professional photographers should share their image preferences with their photographers, especially if outdoor photography is desired. Photographers may have to do a little more work to achieve great outdoor photographs, even visiting a site in advance of the big day to scout areas that can produce great photos. Scouting and preparation can involve seeing the landscape, examining the way the light shines on photo subjects and getting an accurate light reading on a meter to adjust flash accordingly.

Photographers also will need to ensure there are no obstructions that will appear in the background of the photos. It's also important for photographers to select locations that have shade. This way they can adjust the amount of light needed, rather than having to contend with the photo washing out from too much sunlight. There's much a photographer can do in production to fine-tune photos, but the couple can help things along. Bring along some powder or makeup to touch up between photos. Warm weather can cause shininess or beads of sweat on the skin. A light dusting of powder can tame shine, while any remaining moisture can be blotted away with a towel. Although brides and grooms may think clouds on their wedding days are a harbinger of bad luck, overcast conditions can actually contribute to better photos. A healthy blanket of cloud cover can produce richer colors and pleasing shadows, making photos even more appealing. If the clouds are just passing, photographers may wait until a cloud passes over

the sun to provide just the right amount of light filter. Couples may want to change into comfortable footwear as they traverse the landscape to get into perfect portraiture locations. This will help keep their fancier shoes clean, and photos can be cropped to hide feet. Bring along some refreshments when posing for photos, as it can be tiring. Couples can take frequent breaks as the photographer adjusts his or her camera for the next shot. Staying hydrated will keep skin looking supple and ensure that everyone feels refreshed when it's time to return to the party. Not every family member will be able to join the happy couple for outdoor photos. Elderly relatives or those who have mobility issues may find it difficult to stand in the sun or make their way across certain landscapes. Arrange for indoor photoshoots with guests who can't handle the outdoors. Outdoor photos can look beautiful when couples are in the hands of accomplished photographers.
